

Project Green

Sponsorship Opportunity

2021-2022

Project Green

Project Green (a fund of the El Dorado Community Foundation) is looking for local businesses and organizations who believe in our vision of cultivating youth through sustainable community and school gardens to support us financially. Throughout this past year, we have seen the mental health of our youth decline dramatically. Studies show that literally putting hands in the dirt helps to focus and maintain a healthy mindset. We humbly ask that you help Project Green bring sustainable lunch-time garden programs to our community and schools. Your contribution is tax deductible (please consult your tax advisor) and your support will allow us to maximize our fundraising revenue and growth, which will, in turn, provide more funds directly into our gardens - specifically this year's pilot program garden at Green Valley Elementary.

Tax ID#: 68-0255556 (El Dorado Community Foundation)
